

LED-ONE

INDOOR GROW LIGHT

No need for extra rooms, lights, equipment and resources. Grow from seedling to flower.

Design your lighting recipe based on duration, power and spectrum. Set it to one of several programs and let the automation deliver your customized formula.

Unlock your plant's genetic potential to achieve higher yields and never-before-seen results using LED-ONE.

Green Amber's LED-ONE is a fully automated LED light source which revolutionizes the way we cultivate plants indoors and in greenhouses. You can customize your light power and spectrum for optimal light quality, giving you increased yield and quality of plant. Not only that, but with its automation capabilities, significant electrical and HVAC savings are guaranteed.

So why wait? Get yourself an LED-ONE Indoor Grow Light today!

FEATURE	SPECIFICATION
Dimensions	1.1 m (44") x 1.1 m (44") x 0.08 m (3.3")
Weight	35 lbs
Coverage area	2.5 square meters (25-30 square feet)
Illumination Angle	120 degrees
Operating temperatures	-20 °C to 40 °C
BTU	2080
PPF	2050 μmols/s
Efficiency	2.8 μmol/J Watt
Operation Frequency	50/60 Hz
Input Current	110-277 VAC (larger voltages are available)
Power rating	720 watts, 3.3 amps @ 220 VAC *(full channel operation)
CCT(K)	3765 K *(full channel operation, customizable)
Lumens	110000 lx *(full channel operation)
Certifications	RoHS, UL, DLC Hort, IP65
Warranty	5 years
